39-gene WGCNA intersection GO_BP cnetplot
humoral immune response mediated by circulating immunoglobulin
LTB
C1QB
C1QA
lymph node development
LTA
B cell mediated immunity
immunoglobulin mediated immune response
TNFSF4
CST6
CST7
ECM1
negative regulation of molecular function
negative regulation of DNA-binding transcription factor activity
SFRP4
SPOCK2
SERPINA10
ANGPTL4
BMP7
regulation of lipase activity
regulation of Notch signaling pathway
CCL5
ADAM10
size
